Dr. A. C. Young, state veterinarian, is working to eradicate an epidemic of spinal meningitis among horses which has broken out recently in this state, said to be caused by eating swamp hay. Horses in Kansas and Colorado are suffering in great numbers, but few evidences of the epidemic have been found in Utah.

B. F. Bush of St. Louis, president of the Denver and Rio Grande, and E. L. Brown, vice president, are at Hiawatha this morning, making an inspection of the coal mines there and supposedly the Southern Utah and Castle Valley railroads. They came from the East to Price last night by special train and go on west this afternoon.

The county commissioners were in session last Saturday, yesterday afternoon and last night and are to meet again this evening, when numerous bills are to be passed upon. The financial affairs of the county are being gone over with special Auditor Edmunds. No business of real interest to the public has been transacted at the three sessions.

At the meeting of the state board of education last Tuesday a resolution was adopted that beginning with the school year 1913-14, teachers of agriculture in the state high schools must show college credits in the subjects of soil, crops, animal husbandry, horticulture, irrigation and dry farming, provided the credits in these subjects shall represent at least one-fourth of a full college course.

Those who have signified their willingness to attend are from surrounding states, but more are expected by Haines.

The Day of Atonement, or Yom Kippur, is the most sacred of all Jewish holy days, and begins tomorrow (Friday) evening. It comes this year on Saturday, beginning, as do all Jewish holidays, on the evening of the day previous and closing at sundown on that day. The observant Jew abstains completely from all food and drink during the continuance of the day. It is a day devoted to prayer and penitence—a day wherein, through confession and contrition, the soul aims to be at one with its God, to seek His mercy and earn His pardon.

The Advocate is again indebted to William McGuire for a liberal supply of peaches and plums raised on his fruit tract near Woodside that are of exceptional flavor and size. They came through W. H. Dunlap of Price, a friend of the McGuire family. During the week John H. Pace left a sample of three potatoes, raised in the east part of this city, that weigh close to six pounds and are so far the finest exhibited hereabouts this season. Leo Fowler contributes to The Advocate's window display a pumpkin that is "some pumpkin." It (or they) must be seen to be appreciated.

Bryce has recently been in Australia. Several citizens of Price, returning from the Ogden convention and Salt Lake City, had the pleasure of an introduction to the gentleman coming down on the train.

## BEAVER ARE PLENTIFUL

Numerous Colonies and Dams Along Fish Creek—Duck Season.

Fred W. Chambers, state fish and game warden, has returned to Salt Lake City from Fish Creek, Carbon county, where he has been examining into the condition of beaver. Chambers says that the beaver on Fish Creek are increasing at a rapid rate since the protection of the state has been extended to them and properly exercised. At intervals of five or six hundred yards for a distance of about four miles along the creek, says the warden, are beaver dams, with numerous members in each colony. He says that beaver abound principally in Uintah and Wasatch counties, with a few scattered along streams in other parts of the state.

There was an effort made by sportsmen to have the duck season this year declared open by the state fish and game warden on September 15th, but Chambers has consulted with the state's attorney general and has found it to be impossible to comply with the request. The law definitely fixes October 1st as the day for opening the duck season, and it is beyond the power of the warden to make any change. Chambers says that it would have suited him to make the date earlier, as that would have given the sportsmen more shooting and would not have resulted in any general injury to the duck flocks. On the contrary, he thinks it would have been beneficial to duck health to have the flocks kept moving at an earlier date in the season.

## COLTON MAN NARROWLY ESCAPES FIERY DEATH

The residence belonging to Mrs. Betty Egans at Colton, valued at from fifteen hundred to two thousand dollars, burned to the ground one night last week, and Henry Vincent, recently arrested for selling liquor, had a narrow escape. He was asleep and was not awakened until the fire had made great headway.

## COLTON MAN ACQUITTED.

PROVO, Sept. 17.—In Justice Jones' court today the jury in the case of the state of Utah against Theodore Nichols brought in a verdict of not guilty. And at once the other defendants in the same case, Henry Vincent and Robert Johnson, were placed on trial. The three men are charged with selling intoxicating liquor at Colton, which is dry territory.

Deafness cannot be cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflammation of the mucous lining of the Eustachian tube. When this tube gets inflamed you have a running ear or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition forever, the ears out of use are caused by catarrh, which is nothing but an inflamed condition of the mucous surface. We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that can not be cured by Hall's Catarrh Cure. Send for literature, free. J. C. HENNEY & CO., Toledo, O. Sold by druggists. The Hall's Family Pills are the best.

## AUTOMOBILE PARTY WELL PLEASED WITH UTAH ROUTE

George C. Row, L. M. Costy and A. Monson from Chicago passed through Price last Thursday en route to San Francisco, traveling in an automobile. The object of their trip is to find the best and most feasible route and one that would be the most pleasant and picturesque. Row has made the trip through Wyoming and along the route of the Union Pacific railway and in passing his opinion states that if Colorado and Utah would join hands and spend a little money in a few of the bad places that the route through Colorado and Utah is the only way to come.

The accommodations are good, the scenery cannot be excelled, the cool mountain air and the mountain streams would surely divert most of the overland travel this way. The party left Price the same day via Seaford for Salt Lake City.

## SAVOY CHANGES HANDS

Fred L. Wood Purchases Interest of Vaughn A. Paul and Others.

During the week Fred L. Wood became the sole proprietor of the Hotel Savoy in Price, having purchased the interests of Mrs. Jennie Paul, Vaughn A. Paul and other stockholders. The Pauls are going to Prescott, Ariz., where they recently purchased the St. Michaels Hotel, one of the leading hostleries of that section.

Desiring to center their interests in the one house, a proposition for the sale of the Savoy at Price was

made to Landlord Wood, and it was closed within a very few hours.

The consideration is not given, but it is understood a good figure is involved in the Price transaction.
